DEVELOPER / PROJECT-BASED RESUME

ARAD ZABETI.

SOFTWARE DEVELOPMENT / AI AUTOMATION / CREATIVE TECHNOLOGY

GITHUB.COM/ARADZABETI ARAD23426@GMAIL.COM

PROFILE

Independent developer building practical digital experiences across web applications, backend APIs, automation and creative technology. Focused on connecting polished interfaces with useful, reliable systems.

SELECTED WORK

KookTools — LIVE

An interactive music-focused toolkit with practical utilities for musicians and thoughtful web interactions.

Money Flow — PRIVATE BUILD

Android finance application with Persian RTL UI, offline records, personal and business modes, and spending reports.

Developer Portfolio — PUBLIC

Interactive personal site with a command-line experience, OS-inspired explorer, and online resume.

AI Automation Lab — EXPLORATION

Independent experiments in AI-assisted workflows, Telegram bots, API integration and reusable automation.

ENGINEERING APPROACH

Discover the problem / Prototype the interaction / Build the system / Connect services / Refine the experience.
